

oc1507b Cruise Plan

Event Glossary

Otter Trawl: A net towed along the seafloor to collect fish and invertebrates.

Ring Net: A frame with one net towed through surface water for plankton collection.

CTD: Conductivity/Temperature/Depth. A rosette with instrumentation and Niskin bottles for water collection, deployed vertically.

Go-Flo Bottle: Used to collect water from a single depth, closed by messenger. Portable winch will be used to deploy these bottles.
